```

Data Management

Plans

- Add/Update/Delete Plans in the list in the seeders/data/plans.json file
- Run `pnpm seed:plans` to seed the plans

Classes

- Add/Update/Delete Classes in the list in the seeders/classes.tsx file
- Each class should have a list of programIds which are the ids of the [programs](#) that the class is associated with.
- Run `pnpm seed` or `pnpm seed classes` to seed the classes

Coaches

Register on calendly.com and create a new event for each coach. Copy the link of the event and generate an access token from the link below:

https://calendly.com/integrations/api_webhooks

- Add/Update/Delete Coaches in the list in the seeders/coaches.tsx file
- Run `pnpm seed` or `pnpm seed coaches` to seed the coaches

Programs

- Add/Update/Delete Programs in the list in the seeders/programs.tsx file
- Run `pnpm seed` or `pnpm seed programs` to seed the programs
